

INTELLIGENT
ULTRASOUND[®]

for smarter scanning

BABYWORKS

Pediatric and Neonatal
Ultrasound Simulation

POINT OF CARE ULTRASOUND

Real patient cases and over 10,000 pathology variations

Run active scenarios to test assessment and decision-making skills

ECHOCARDIOGRAPHY (TTE & TEE)

Comprehensive Transthoracic Echocardiography (TTE)

True-to-life Transesophageal Echocardiography (TEE)

TEE controls for ante and retroflexion, lateral flexion and, omniplane rotation

CARDIAC ANATOMY

Interactive 3D heart with over 140 intra-cardiac structures labelled

Colour, pulsed wave and continuous wave Doppler

TRUE-TO-LIFE SCANNING

Accurate, palpable anatomical landmarks

Scan from the clavicle to the pelvis and 3 cranial windows

Scan as you would a real baby

CART-BASED SYSTEM

Manoeuvrable, adjustable cart

Designed to mimic true-to-life ergonomics

Pediatric and neonatal ultrasound training.

BabyWorks Sam is an ultra-realistic baby manikin offering a safe and effective training tool for pediatric and neonatal ultrasound, with real patient scans and 56 cases.

Perform true-to-life patient examinations.

Accurate, palpable, anatomical landmarks and ultrasound data covering from the clavicle to the pelvis, and 3 cranial windows, mean you can scan as you would a real baby.

Active scenario training. Run realistic scenario training using the instructor tablet. Easily change the pathology, heart and/or respiratory rate and the severity of the pathology instantly to test assessment and decision-making skills.

Cardiac anatomy & echocardiography.

Integrating the high fidelity of the HeartWorks cardiac simulation, Babyworks offers risk-free training for Transthoracic (TTE) and Transesophageal (TEE) Echocardiography in pediatric and neonatal care.

“Though underutilized, cardiac PoCUS in children can be immediately life-saving and drastically change the clinical management at the patient’s bedside”

Doniger, S.J., Ng, N. Cardiac point-of-care ultrasound reveals unexpected, life-threatening findings in two children. *Ultrasound J* 12, 4 (2020).
